Juan Arce Marron is a local fisherman, abalone diver, musician, radio technician, stone mason and all round great guy who will win your heart with his quiet manner and excellent English. Juan operates Bahia Asuncion Tourist Services, a company that provides accomodation, a sports fishing charter business offering fishing, spear fishing, snorkeling, scuba diving and accomodation packages.

His Canadian wife Shari Bondy is a teacher, whale researcher, sailor, great cook and loves to have fun, listen to and share stories. Shari and Juan have helped many people find a home or lot in the village and offer buildigs services and property management for expats. Shari has been in Baja over 20 years since her daughter Sirena was born, who is a lovely girl who loves music, dancing, horses and raising her son Izaak. Their family also includes 2 dogs and a cat, ... so they are definately "pet friendly". Juan & Shari's extended family also love to meet and interact with the guests, entertaining them with their talents, preparing their seafood & mexican food specialties and enjoying the company of new friends.
